Return Postage Guaranteed

By planting the seeds, roots and tubers of several kinds of Natural Wild Duck Foods this Spring you can enjoy good Duck Shooting next FALL.

**In Fresh Water Rivers, Sloughs, Ponds or
Lakes, These many kinds will grow:**

Wild Millet
Burreed
Pickerel Plant
Water Smartweed
Three Square Rush
Cattail
Sweet Flag
Water Shield
Deep Water Potato
Muskgrass
White Waterlily

Nodding Smartweed
Wapato Duck Potato
Bulrush
Frogbit
Wampee Duck Corn
Cord Grass
Wild Celery
Sago Pondweed
Wild Rice
American Lotus

For Brackish Waters, Plant These:

Pickere! Plants
Salicornia
Muskgrass
Sago Pondweed
Widgeon Grass

Three Square Rush
Wild Celery
Wampee Duck Corn
Seed

All of these except Wild Celery do well in waters strong of alkaline.

Places subject to Flood Water will grow these:

Wild Millet
Burreed
PICKEREL PLANTS
Water Smartweed
Three Square Rush
Cord Grass
SAGO PONDWEED
Muskgrass

Nodding Smartweed
Wapato Duck Potato
Bulrush
Wampee Duck Corn
Cattail
Wild Celery
Deep Water Duck Potato
American Lotus

In Sandy Soils, plant these:

Nodding Smartweed
Wapato Duck Potato
Bulrush
Three Square Rush
Cord Grass
Sago Pondweed
Muskgrass
Salicornia

Burreed
Pickerel Plant
Water Smartweed
Cattail
Wild Celery
Deep Water Potato
Widgeon Grass
White Waterlily

For Acid Waters, these are best:

Wapato Duck Potato
Pickerel Plant
Water Smartweed
Cattail
Sweet Flag
Water Shield
American Lotus

Nodding Smartweed
Bulrush
Frogbit
Wampee Duck Corn
Cord Grass
Deep Water Potato
White Waterlily

**MORE FOOD — MORE DUCKS
BETTER SHOOTING**

You don't need a sign to tell the Wild Ducks where to find food. BUT, you do need Duck Foods growing if you want Good Shooting. Here are several of the best duck coaxers for planting NOW. Several kinds will produce a variety of foods, thus entice more wild ducks and they will stay for a longer visit. Mail your order at once. We will acknowledge same and send complete planting instructions.

Nodding Smartweed
Wapato Duck Potato
Frogbit
Water Smartweed
Cattail
Sago Pondweed

American Lotus
Pickerel Plant
Wampee Duck Corn
Water Shield
Deep Water Potato
White Waterlily

A Mud Soil Will Grow All of These:

Wild Millet
Duckwheat
Wapato Duck Potato
Water Smartweed
Cattail
Sweet Flag
Wild Celery
Deep Water Potato
Wild Rice
Salicornia
White Waterlily

Nodding Smartweed
Burreed
Pickerel Plant
Frogbit
Wampee Duck Corn
Cord Grass
Sago Pondweed
Water Shield
Muskgrass
Widgeon Grass
American Lotus

NATURALISTS ARE CONTINUALLY AMAZED

THE DIFFERENT BEAKS shown here are specially adapted for different ways of feeding, scooping, tearing, digging and pulling.

They illustrate why naturalists are continually amazed at the number of ingenious ways in which Nature helps her children solve the problem of food.

Migratory waterfowl also have that which we might term as a telescopic vision, very keen. While winging their way over a body of water they can observe the kinds of food which grow beneath the water's surface.

Where they find a variety of the foods they like to eat, large numbers will stop and they will stay as long as the food supply will last or the season will permit.

CANVAS-BACK

WILSON SNIPE

HELP NATURE

Nature is slow in her process of distribution of aquatic seeds. It sometimes takes years upon years for Nature to spread the seeds of Natural WILD DUCK FOODS over a large area and from lake to lake. Seeds must drift with the current, birds must carry undigested seeds OR perhaps one may stick to the feet of some species of waterfowl and thus be conveyed to another lake or pond.

Fortunately these seeds can be purchased and planted by man,

often accomplishing in ONE YEAR that which may take Nature a hundred years to do.

GOOD Feeding Grounds for our supply of wild ducks are inadequate to provide for the supply of birds. They migrate thousands of miles in search of food, even into the most remote places. It's no trick to coax the wild ducks to your Favorite Shooting Place—simply plant a variety of the kinds of food they like and will continually search for.

GAME FOOD NURSERIES, P.O. Box 371, Oshkosh, Wisconsin

When Shooting at Wild Ducks Dropping to Decoys, Gun Must be Held Well Under.

*But, you can't shoot them if the birds aren't there,
and—they won't be there, unless there is something
for them to eat. Wild ducks can't live on just water.*
